

## **Update for water service in Waskesiu as of Friday, May 13:**

**Prospect Point** – Water is on.

**Subdivisions 1, 2 & 3** – Water is on.

Cottage owners should be aware that the water lines servicing individual cottages may still be frozen.

**Cabin Area** – Water will be turned on starting May 16.

Please note that there may be delays in the areas where swale work was started in the fall due to potential water line damage.
